STATEMENT BY ELBA MAYOR JACK BRUNSON

Long Rumored Electric Rate Increase Effective In Elba

Ferry Operator (\$4,017

The Water Works and Electrical Board of the City of Elba, after several meetings and long hours of study and discussion, voted on January 29, 1973 to increase the electrical rates. This rate increase will be reflected in the bills due on March 1, 1973.

This is the first electrical rate increase imposed by the Board in its twenty-five years of operation. During this time the costs of materials and labor have skyrocketed. The ever increasing demands for extending lines and additional voltage required hundreds of thousands of dollars in expenditures. Even with these increased costs and additional expenses, the Board was able to continue serving its customers at the rates established in 1947 due to economy measures taken and a larger sales

in Andalusia, \$16.59 in Opp, \$18.37 in Enterprise, and \$18.80 in the rural area around Elba.

If the cost of fuel to generate the electricity exceeds 3.4 mills per KWH, the Board will have to pay the excess and this charge will be added to the customer's bill. It is not anticipated that this "fuel adjustment factor" will materially affect the customer's bill in the near future. The addition of a "fuel adjustment factor" to the customer's bill has been used by Alabama Power Company, Gulf Power, and others for many years.

The members of the Water Works and Electric Board of the City of Elba regret that it was necessary to take this action, however, they trust that its customers will understand there was no other practical alternative.

In spite of the actions taken in the past, the Board could not continue to operate and absorb the 24.2% rate increase being imposed on it by its wholesale supplier. This increase amounts to over \$65,000 per year. A check of rates from another possible wholesale supplier indicated an even higher increase amounting to over \$73,000.

Realizing that local citizens and businesses have also been faced with the rising cost of living, the Board kept its rate increases as low as possible. A residential customer using 1,000 KWH per month will pay \$15.70 (plus state tax) under the new rate, compared to \$13.58 under the old rate. Even with this increase, the cost of electricity in Elba is less than in neighboring areas. This same 1,000 KWH that cost \$15.70 in Elba would cost \$15.95

Love

ZCHS EDITORIAL STUDENT SPOTLIGHT

There is one thing in life that no one will ever go without experienceing. Love. Love is found in many forms, the love for an animal, a relative, a playmate, and parents. But the love that was meant for everyone is the love of the opposite sex. This is one of the greatest experiences on earth and should be cherished and never taken advantage of. No one really explain love. It involves many things -- a feeling of satisfaction, anxiousness to explore new things, tenderness to help soothe the cares of a loved one, and the shar-

ing of lives through the good as well as the bad. Love is a tender and glorious thing, but many people don't instead they make it to be wha they want it to be. This isn' truly love.

If it were not for love, on would not be able to face eac day and to appreciate its valu upon their lives. No one i ever to young ot too old to experience love. They may n t realize it, but it can always be Senior Of The Love can be mixed with other things and not exhibit its full

flour, half a cup of salt dumped n before I could even mix my cornbread. Well, in a few minutes he was wrist deep in that conglomera-tion, and the "oh, no's" were flooding my sense of order and neatness. But, I kept quiet and went on about my business, and Mrs. E. M. Warr was hostess to the Three- In - One Study Club, February 1st. Mrs. Dozier Roberts was co-hostess. Refreshments were served by the hostess upon arrival of guests.

Well on about my business, and suddenly he disappeared. "Good," I thought, "he's got it under control." But my relief was short-lived, for in a matter of minutes he was back - it had got too hard, and he had added some more water. "Oh

the hostess upon arrival of guests.

Mrs. Bill McCollough, Vice president called the meeting to order and presided over business. Mrs. R. H. Lee, substituting for the Secretary called the roll and read the minutes of the January meeting.
Mrs. Price Ringo gave the Treasurer's report.

Mrs. McCollough announced a convention to be held in Enterprise May 3-4-5. The members of the Three-In-One Club will host a breakfast buffet on the 4th.

it had got too hard, and he had added some more water. "Oh, no, honey, now you've thrown the recipe out of whack." So I dumped some more flour in -- he squished some more salt -- still too thin -- I dumped in some more flour.

By this time the stuff was blobbed all over the rim of the bowl, dolloped here and yonder on the counter and floor, not to mention clinging to ten small fingers, and he was getting impatient.

"Mother, help me," he plea-"Mother, help me," he plea-Mrs. Price Ringo gave an inspiring devotional and Mrs. Ola Kendrick gave an interesting talk on "Spiritual Expressions of a culture."

Alabama Heart Association Unfiltered Truth: Cigarettes Can

The U. S. Surgeon General's a bored life, the dull household

warning is explicit: "...cigarette smoking is dangerous
to your health." Yet, millions
continue to puff away. Why?
"Many persons think they can't
kick the habit," says Dr.James
F. Mracek, President of the
Alabama Heart Association.

"They assume they're addicted while medical evidence
indicates they're not. Addiction, unless it's psychological,
only happens where chemical
changes take place in the body.
There is no conclusive proof
that this happens, even for heavy smokers. Smoking is a learned behavior. It can be unlearned."

"Men who smoke more than a arned."

"Men who smoke more than a smokers in their presence by raising the level of carbon monpack of cigarettes a day have twice the risk of heart attack and five times the risk of stroke the danger point and beyond.

The wind sinder more than a raising the level of attachment and a value in poorly ventilated areas to the danger point and beyond.

He suggests that heart and lung

as a non-smoker," Dr. Mracek says. He cites that studies show that stopping smoking can levels are increased by cigabe profoundly important. "The mortality risk of people who have stopped eventually approaches the mortality risk of those who have never smoked," he sake,' says Alabama Heart Aspects. sociation's Dr. Mracek. "Anyemphasizes that "coro- others will want to quit for their nary heart disease is the leading killer of male cigarette smokers." A National Clearing House for Smoking and Health study has shown that corporary study has shown that coronary artery disease increases in relation to the number of cigarettes you smoke.

Health warnings have convinced growing numbers of men to stop smoking. But ironically, women are smoking as much as ever before. Psychologists believe this may be due to an inability to cope with the to an inability to cope with the stress of daily life. A study by Los Angeles psychiatrist Dr. Louis P. Bozzetti offers this theory concerning woman. ory concerning women: the Alabama Heart Association in Birmingham, for information bored life, the dull house on how to stop smoking.

but may be constructed in a small draw having a small dra-aining area. Clay soils are best to dig these in and the draining the state of the state o drainage area must be in the woods or grass to prevent the holt from filling with silt.
